IMPORTANT NOTES

BED FRAME: All wall bed frames feature cambered beech slat mattress supports which allow for the natural curve of the spine while resting. The slat supports are connected to a heavy duty steel frame by flexible support brackets.

MATTRESS: Standard innerspring mattresses are recommended. Maximum mattress thickness is 250mm.

INSTALLATION: All cabinets must be fixed securely to the wall.

OPERATION:

All wall beds **MUST** be carefully lowered to the floor and not left to drop freely.

PRICES: Prices listed are for mechanism only. All cabinetry by others. Mattress sold separately.
